Beloved Bloody Time

A Vampire Ménage Time Travel Futuristic Romance series

Overview

In the early 23rd century, vampires learned how to travel back in time. They created a time-tsunami that threatened life as we know it, until they corrected their mistake. They created the Chronometric Conservation Agency, which is tasked with preserving history and therefore protecting humanity's future. The Touring arm of the Agency offers trips back into the real past, with vampire guides, called travelers.

Now, two hundred years on, vampires are trying to emerge more fully into human society and find complete acceptance, but their attempts stir up enemies, including Psi-filers — genetically modified psychics — who resent the few rights that vampires have already achieved. Time travel comes with its own dangers and difficulties, too.

Love among the annals of history and across time itself...these are the stories of the heroes and heroines of the Agency.

Blood Stone

A Vampire Ménage Urban Fantasy Romance Series

Overview

Nathaniel (Nial) Aquila Valerius Aurelius is over 1,500 years old and a master manipulator of people, hearts and emotions, but he has grown tired of hiding behind masks and he knows the modern world will soon force vampires out of hiding if they do not step out into the light themselves.

But there are those that oppose Nial and his liberators' plans to expose vampires to the world, including the powerful Pro Libertatus, who hide among the powerful of the human world; politicians, military leaders, powerful businessmen and entrepreneurs with enormous resources and manpower to call on to bring Nial and the liberators to heel.

Then there is the League for Humanity, who are anything but humane. They consider humans the underdogs, mere servants to their vampire overlords and useful cannon fodder. They hide in shadows while humans do their very dirty work, as they try to bring the liberators back into line. They have no intention of becoming the equal of humans in any respect.

It would be a tough challenge with just those opponents, but Nial and his friends face more and more difficult foes as time goes on: The Unspoken Ones — vampires so old they have regressed to ways of thought and speech that modern humans and younger vampires can barely comprehend, but they wield powers unmatched by anyone on the planet.

Then there is the Blood Stone itself. Is it myth, or real? If it is real, it has the power to change the world as we know it. Who finds it, who wields it and who breaks it, will decide the fate of humans and vampires, both.

What is missing?

Are there untold stories in your favourite series? A type of book you'd wish I would write? Two characters you'd like to see get together (even temporarily)?

Send your suggestions to Tracy@TracyCooperPosey.com and mention this workbook and what you'd like to read.

There are many stories I've told because readers wanted to read those stories, so tell me – I'll listen!
